

Fence & Gate Post Clamps Bronze, Tinned Fence & Gate Post Clamps

Features

- Made from high copper content alloy
- Tinned clamps provide a theft deterrent appearance
- Stainless steel bolts, nuts and washers included
- Each part is marked with the corresponding part number and conductor range
- Applications include lightning protection, fault current ground, signal reference grid, static ground

Part of the ERICO® Six Point Plan of Protection, the new Fence and Gate Post Clamps connect to a ground conductor to bond all ground points together, eliminating ground loops and creating an equipotential plane. Part of the ERITECH® line of Facility Electrical Protection products, this clamp allows the ground conductor to dissipate energy into a low impedance grounding system, to help protect the facility, equipment, and personnel when lightning or other transient voltages occur.

North American Part Number	Pipe Size - Imperial	Conductor Size - Imperial	European Article Number	Pipe Size - Metric	Conductor Size - Metric	Master Box Quantity
